NEW MOTORCYCLE COMMON TOOL LIST

1. By use of this list, the tools will be used effectively and rationally and models available located soon.
2. These common tools listed herein, which were selected from the HONDA service tools available in the past, are commonized to a great extent that they may be used at a high frequency over a number of HONDA models.
3. This list should be used together with the Motorcycle Special Tool Appropriation List.
4. Ref. No.1 and 14 tools are the conventional common tools.
